

One frozen TessScope validation field, from optics to correction

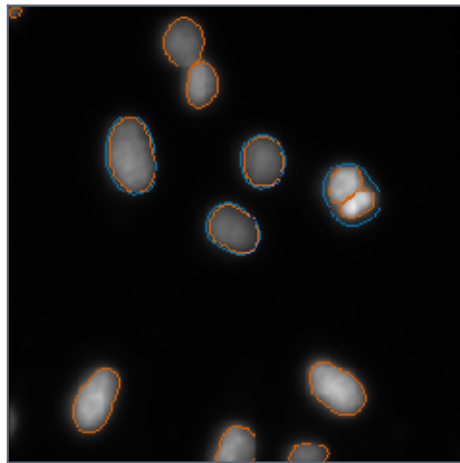

n21_s1 · initial defocus -2 μm · exact-gradient design · deterministic cached evidence

Exact · first frame

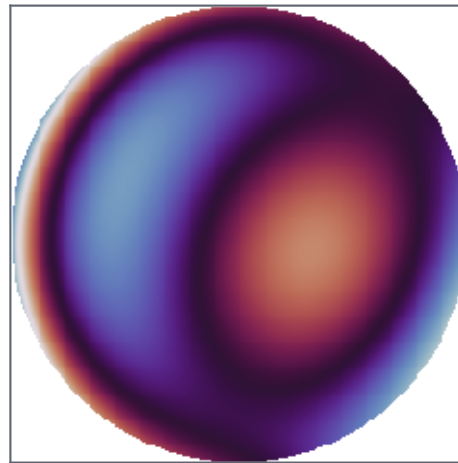

PQ 0.629

Exact · after stage action

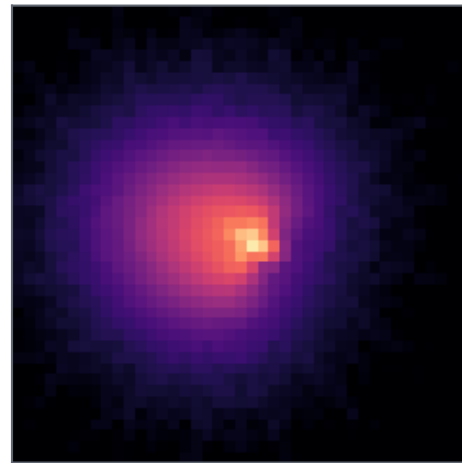

PQ 0.630 · residual -1.25 μm

Exact B7 pupil phase

fixed wrapped $-\pi$ to $+\pi$ scale

Exact PSF · -2 μm

fixed global $\log_{10}$ scale $[-5, 0]$

Blue: automated reference · orange: InstanSeg · magenta: overlap · representative frame only; population result reported separately
